

Ekstraordinært forstyrrelsesmøde vedr. flytning af F-klubben

2018-10-25

Intro

- Til stede
 - Anders Brams, Andreas Larsen, Bogi Thomsen, Christian Knudsen, Katrine Elefsen, Sabine Tovgaard
 - Dimitrios Raptis, Jesper Kjeldskov

Referat

Jesper og Dimitrios fik tilsendt følgende besked vedr. flytningen af F-klubben:

Dear Jesper and Dimitrios,

The F-klub board has talked, and it seems that moving the storage room alone is not quite as simple as it would seem.

The following is a list of items that should be in place in order to make the moving process as painless as possible.

- *The F-klub cannot move the storage room before there is a clear plan for moving the rest of the F-klub headquarters to the yellow cluster. Preferably, this plan should facilitate moving the entire F-klub within two weeks. This will give us enough time to coordinate moving all inventory, and the F-klub will not be split and partially non-functioning for the shortest possible amount of time.*
- *The F-klub will greatly prefer that the storage room and kitchen are moved simultaneously. This needs to be coordinated w.r.t. dates so the F-klub can contact Carlsberg and JDE regarding moving and mounting the refrigerators and coffee machine.*

- *As stated in the agreeing statement regarding this movement that we sent you, the Institute must be the facilitators of professional help with de-mounting, moving, and mounting TVs, drawers, and all other wall-mounted items (and other items otherwise requiring professional help with moving) in the F-klub. Furthermore, the noticeboards in the yellow cluster must be demounted in order to make room for the TVs and console gaming area. Alternatively, the Institute can supply the F-klub with new drawers that can be used instead.*
- *The F-klub must have a pallet lifter available in order to move goods from Carlsberg across Cassiopeia. This is not just during the moving process. The pallet lifter must be available at all times as long as the F-klub is situated in the yellow cluster.*
- *The F-klub will appreciate a concrete answer on whether or not it will receive new furniture (couches, fatboys, etc.) before the moving process is begun.*
- *The institute must move the refrigerators in the yellow cluster kitchen elsewhere.*

This may be easier to coordinate through a face-to-face conversation - please let us know if you have time this week.

*Best regards,
Anders Brams on behalf of the F-klub board*

Dette mode handler om diskussion af disse punkter

They need

- More accessible to other students.
- Clean up everything.
- A drawing of a (possibly) re-imagined Jægerstue.
- A drawing of a maker-space in cluster 5.
